

ISES Workshop 1**Date & Time:** Tuesday 29 June 2010, 4:00 PM - 6:00 PM**Room:** 301+302**Organizers:** ISES Japan chapter, JSES, RE2010 Organizing Committee**Outline:**

The roles of the Solar Energy Societies for the widely use of the renewable energy in our future are talked by the experts of the solar thermal systems, PV systems and the Solar Architecture. Since the invited speakers are the representatives of ISES, ISES Asia Pacific Region, ISES Japanese Section and JSES (Japan Solar Energy Society), the achievement and expected activities in the countries and the regions and from the global scope will be also talked.

Agenda:

Chaired by Mitsuhiro Udagawa (President of JSES, Kogakuin University)

16:00-16:10

Opening address by Mitsuhiro Udagawa

16:10-16:30

"ISES Activity, Now and toward the Future"

Dr. David Renné (President of ISES, NREL)

16:30-16:50

« Solar Architecture in Hot Climate »

Prof. Dieter Holm (Vice President of ISES)

16:50-17:10

"Building Integrated PV systems"

Prof. Deo Prasad (Chair of ISES Asia Pacific, University of New South Wales)

17:10-17:30

"Passive Solar Architecture"

Prof. Nobuyuki Sunaga (Vice President of JSES, Tokyo Metropolitan University)

17:30-17:50

"Application of PV systems"

Prof. Tatsuo Tani (past President of JSES, Science University of Tokyo)

17:50-18:00

Closing by Mitsuhiro Udagawa
